

Aims & Objectives

With the support of the British Horse Society and Horse & Hound we are pleased to provide a series of training sessions aimed directly at helping you understand and work within the various legal requirements affecting the transportation of equines in larger vehicles.

These 4 hour courses will cover a range of relevant subjects including Drivers' Hours regulations, use of tachographs, rest requirements, driver licensing, vehicle weights and carriage of equines.

Discussions will centre on clarification of different types of equestrian activity, where they fit in with the definition of "commercial" use of vehicles and the impact this legislation will have on all who are transporting equines.

Who Should Attend

You should consider attending if you transport equines using large vehicles.

Including

- Private Owners
- Equine Centres
